News Notes

J. W. Low Police Magistrate, Cardston, was here holding court on Wednesday.

Someone suggest a committee to draft some Softball rules. It would save a lot of argument when the lighting fast players are in action.

A telephone repair crew are here rebuilding the line where poles are weakening. They have about ten days work yet.

The Frigidaire Demonstration advertised for Tuesday May 13, has been postponed one week and will be held in the Second Ward Chapel next Tuesday May 20, at 2 p.m.

The Congoleum Rug, given away in the guessing contest at the Merc was won by Wm. Meeks. His guest was 1617, and the number on the rug was 1690.

The Super-Service Station installed a new fully automatic Air Pump on Tuesday this week. It is a splendid machine and will keep a pressure at all times heavy enough for the larger tires.

Mr and Mrs. Gordon Brewerton Cardston were Raymond visitors Sunday, returning on Monday. They travelled by way of Maelred and were able to make the trip without chills.

Bert Love, Delin Bennett and Nolan Jeffrey left here Saturday for Calgary, Edmonton and other points north, as part of a tank erecting crew for the British-American Oil Co.

Mr. and Mrs. Rayo Woolf and Rosecoe Humphreys were in Cardston on Sunday. They returned the same evening and Rayo says he never saw so much water fall as he saw on the gravelled road between Stand Off and Monarch on the way home.

Ross Humphreys and Rayo Woolf represented the Raymond A.A.A. at the Baseball meeting at Staveland Wednesday last and succeeded in getting the boundaries of the district changed so that Raymond and New Dayton are in the same district as Cardston and Magrath. Formerly we were in the Medicine Hat district.

The home and lot of Dr. G. W. Lee will be a real beauty spot before long. The entire area was covered with drift soil and a nice lawn made which is just commencing to show nice and green.

Trees and shrubs are planted and are being planted not only in the lot but also on the street surrounding the home. When the trees are in leaf and the shrubs and flowers bloom, this corner will be a centre of attraction indeed.

UPROARIOUS WINNIE LIGHTNER TOMBOY, IN "GOLD DIGGERS OF BROADWAY," AN-COLOR TALKIE

Winnie Lightner is evidently destined to be always a tomboy. For the stellar musical comedy and variety stage star, who made her first stage appearance as a tomboy, and then capitalized on this odd character as a headliner, enacts a tomboy role as one of the nugget gathering chorus girls in "Gold Diggers of Broadway," Warner Bros. and Vitaphone 100 p.c. natural color, singin, talkin, dancin picture in technicolor at the Capitol Theatre Mon. Tues. and Wednesday.

Quite by accident, Winnie became a professional tomboy. Upon her first stage appearance as a young girl, she was to be a singer, but her boyish clothes and muddy shoes immediately brought gales of laughter from the audience. Since that time she has always been a tomboy playing in vaudeville as a headliner for many years, and as the star of musical comedies.

Miss Lightner made her first screen appearance in a Warner Bros. singing short film, singing ten songs, "The Song-A-Minute Girl" and Broadway's Favorite.

Quarterly Conference Is Held

Raymond To Celebrate

Softball Going Strong

The regular Quarterly Conference of the Taylor Stake of Zion convened Saturday evening and Sunday, May 10 and 11 in the Stake House, and despite the heavy roads every session was well attended.

SATURDAY EVENING

The meeting Saturday evening was called to order by Pres. H.S. Allen at 8 p.m. and the congregation joined with the choir in singing "Now Let Us Rejoice." Patriarch D. F. Fawns offered the Invocation and the second song was "Come Listen to a Prophet's Voice."

Pres Allen was the first speaker and after referring to the splendid prospects now existing cautioned the people to be careful of the means coming into their hands and not buy too much on prospects. After expressing his gratitude for his standing in the church, he spoke of the growth of the church since its organization and said that while there were many things we didn't know yet regarding the mysteries of Godliness, that our knowledge was greater than our power to do, and that we should continue to improve and make ourselves better by study and good work.

Elder Dale S. Gibbs of Magrath reported briefly on his labors in the south-western states and here a strong testimony to the truthfulness of the Gospel.

Apostle Geo. F. Richards was the concluding speaker and spoke of the sympathy existing between the members and the General Authorities of the church and the help we all gain from each other's prayers. The greatest thing we can do in life is to help others on the way to salvation, and because of our surroundings we need to meet together often and be reminded of our duties and obligations one to another. He gave a number of interesting statistics in relation to baptized members and the great number 6,981,700 dead who had been baptized for the Temple, and spoke of the absolute necessity of our applying ourselves to Temple Work.

Mrs. Dave Watson sang "Open the Gates of the Temple" and benediction was pronounced by Louis Brandley.

SUNDAY MORNING

The Sunday morning session commenced at 10 a.m. with Ira McEldred leading in the singing of "Welcome, Welcome, Sabbath Morning." John F. Salmon offered the opening prayer and the second song was "In Our Lovely Desert."

Pres J. W. Evans as the first speaker relating the first vision of the Prophet Joseph Smith and the subsequent visitations he received. Spoke of the development of Our Missionary Service and told a very interesting story in Missionary work.

T. Geo. Wood, Stake Supt. of Sunday Schools expressed his appreciation of working in the children's cause the Sunday School, and spoke briefly on the beauty and honor and loveliness of our Mothers.

The congregation sang "Oh I had Such a Pretty Dream" etc. and then Elder W. A. Keith spoke briefly on Mother's Day and related some of his recollections of his Mother. Elders Byron Vance and David Allred, recently returned from the mission field reported their labors and bore strong testimonies to the truthfulness of the work.

The congregation then sang "Joseph Smith's First Prayer."

Elder Richards spoke on Mother's Day and the debt we all owe father and mother. In offering suggestions for our improvement he said we often learn from those not of us, and spoke of our lack of reverence for places of worship. Spoke of the joy that comes to father and mother when children do right, and recited several poems on this thought.

Closing song was "Secret Prayer" Elder Albert Brandley offered the benediction.

SUNDAY AFTERNOON

At 2 p.m. the Stake House was filled to capacity when the opening hymn "High On the Mountain Top" was announced Elmer Spackman offered the opening prayer and then the choir sang "Lord, God Almighty," the solo being sung by Bishop James

Softball is gaining in popularity all the time. Games are played as often as the weather permits. So far no league has been formed, but it is hoped that one will be formed and that a suitable trophy can be donated to be competed for.

We are also informed that the A.A.A. will sponsor softball for the ladies and if the members of the fair sex will join the Association at 50c a year membership, the Association will supply the playing equipment and select a Coach or Manager for each ladies team.

Other towns are going strong and home and home games could be arranged for the entertainment of everyone. Come on folks. Keep your youth and vigor by a little wholesome sport and exercise. We have an opportunity for some real fun.

SOFTBALL SCHEDULE

Fri. May 15—Mercantile Staff vs. Factory Staff.
Tuesday, May 20—Factory Staff vs. Business Men.
Thursday, May 22—Teachers vs. Mercantile Staff.
Friday, May 23—Mercantile Staff vs. Business Men.
Tuesday, May 26—Factory Staff vs. Teachers.
Thursday, May 28—Business Men vs. Teachers.
Friday, May 29—Factory Staff vs. Mercantile Staff.
Where games are postponed due to rain or other causes, dates will be arranged later.
Get this out for reference.

M. I. A. WILL NOT HOLD MEET

Announcement has been made that so far as the Stake M. I. A. is concerned, there will be no Stake M. I. A. Truck and Field Meet this year. This was the decision arrived at in a Board Meeting held Sunday evening after Conference. The first date announced was May 24th, but this met with opposition from several of the wards because of the A. A. A. Meet at Cardston on that date, and local athletes wanting to take part. Other dates were suggested, but every date met with opposition and the Stake M. I. A. finally decided not to hold a Field Day this year.

We regret very much that this condition has arisen. The good that Meet does can not be measured and the benefits received by the participants are incalculable. Couldn't one be put over.

If it is let slide this year it will be that much more difficult to stage one next year, and we think that before another year arrangements could be made with our neighboring Stakes to avoid any conflict as has in the past existed.

H. Walker.

The General Authorities of the Church and Stake were presented by Pres. O. H. Snow and unanimously sustained, after which Wm. Clark sang "I Know That My Redeemer Lives."

Pres. O. H. Snow then addressed the meeting stating we had much to be thankful for. He said that if the first vision was not true then Mormonism was a fraud, and read the plain story of this event. Mormonism was a rational theology and was steadily growing.

The choir sang "The Heavens are Telling" and then Elder Richards spoke on "Mother's Day" and the love we have for our parents. He read an article from the Era "Does It Pay to Rear a Large Family" and commented upon it. Spoke of the sanctity of the marriage covenant and advised all to marry within their

PREMIER ANNOUNCES ELECTION: JULY IS MONTH OF BALLOTING

Ottawa, May 15 (Special to the Recorder) Canada is to spend the summer in the throes of a general election. The challenge of the opposition, voiced by Hon. R. E. Bennett, has been accepted by Premier King. As soon as the business before Parliament can be brought to an orderly conclusion the house will be dissolved. At this writing July 14 or 21 are regarded as the likely polling dates.

Already members have started to drift back to their constituencies to complete their organizations and to arrange their conventions, where they have not been held. Another two weeks will see the campaign in active progress, though the party leaders are unlikely to get into action on the platform before the first of June. Radio and direct mail publicity will take a more important part in the campaign, though the older forms of advertising are not to be neglected. Headquarters of both parties insist that there will be diffusion of publicity on an unprecedented scale and that electors will go to the polls equipped with a wider knowledge of the issues than ever before.

So far as the budget is concerned the issues of the next campaign are fairly clearly defined. Mr. Bennett found in it nothing to stimulate, or to build up the Canadian home market either for agriculture or other industries. If the extension of British preferences are effective, he contended they will simply transfer a portion of our purchasing of manufactured goods from the United States to Empire sources. If they go further than that they will reduce employment in Canada.

The principle of countervailing duties he found, ineffective as they applied to articles of which Canada is an export basis and, therefore, an unlikely importer. Nova Scotia can avoid with a subsidy of 49½ cents when used for cooking for steel-making in Canada but he held that benefit was more than eliminated by added competition which secondary steel industries will face through the extensions of the British Preference.

Another criticism did betray what must have been a ministerial oversight; the budget neglected what is regarded as the first essential of a budget, an estimate of expenditures and of revenue for the current year. The charge is laid that this was left out because the Government expects its first deficit in many years in 1930. The surplus last year was said to be \$44,000,000. It has been estimated that a loss in excise revenue of \$15,000,000, will follow enforcement of the new no-clearance law for liquor laden vessels bound for the United States. The cut in the Sales Tax will lop another \$20,000,000 off revenues in 1930 while a drop in income tax receipts of probably \$10,000,000 is expected as a result of stock market and business conditions. Subsidies to the Prairie provinces and to the Maritimes, as well as Old Age Pension will require more outlay while, if they prove effective, tariff reduction in favor of the Empire will reduce customs income.

Such are the major criticisms of the 1930 budget. In its favor there are a number of important features. The War-time tea tax of seven cents a pound goes off and while that amounts only to about fourteen cents a month to the average family it is a reduction that will be noted twice a month by every family, if not more often. The duties to be imposed upon fresh fruits and vegetables are welcomed, though

Plans are well under way again for a Big Dominion Day Celebration this year and all local people will do well to plan this day at home. Following last year's program somewhat, the tentative plans call for a Mammoth Parade, Patriotic Program and afternoon of Sports, concluding with a Grand Ball in the Opera House at night, and likely Salutes and a Display of Fireworks.

Chairmen of all Committees have been chosen and these individuals met where the celebration was discussed at the Town Hall on Monday evening and the Chairmen asked to select other help and draw up their various programmes and events.

Another meeting will be held soon to check up on the progress being made and in the meantime invitations will be sent out to neighboring towns to join with us here, and those deciding to do so will be billed so that everyone will be made aware of the full program for the day.

"Well begun is half done," they say. Let every citizen fall in line and co-operate wholeheartedly to make this day the Biggest and Best Dominion Day ever held in Raymond.

HOME CANNING FULLY DESCRIBED IN NEW BOOKLET

Bank of Montreal Issues Valuable Handbook for Thrifty Housewives

Did you know that meats and vegetables can now be canned and put away for winter use just as successfully as fruit? This is one of the most useful and remarkable discoveries of recent years, and the process is fully described in a handbook covering the whole field of home canning now being issued for free distribution by the Bank of Montreal.

In recent years the Bank has issued a whole series of handbooks for farmers. The latest booklet, entitled "Home Canning," is addressed particularly to housewives on the farm, and should help materially not only to solve the problems of canning, but to widen the range and add to the prosperity and health of rural families.

Few people realize, perhaps, the progress that has been made in recent years in storing away the products of the summer season for use in winter. There are those who can remember when jam was the only preserve. Then came the preservation of whole fruit in syrup. It was only four years before the war when methods were discovered for the canning of non-acid vegetables and meats, and now there is hardly any perishable food which cannot be stored away in times of plenty for use when need arises.

The question as to whether or not canned products are healthful arises. This booklet dissipates any doubt there may be on that matter. It shows not only how the essential vitamins and other healthful qualities may be retained in preserved foods, but how the may be made to retain their original freshness and thus contribute materially in the preservation of health through diet.

Everybody knows nowadays that a plentiful supply of fruit and vegetables is necessary to a healthy diet. Farm folks, however, have no quick and easy access all the year round to fresh products. They usually either have to go without fruit and vegetables in winter, which makes for monotony of diet and is expensive from the health standpoint, or they have to buy fresh and canned fruits and vegetables, which generally results in going without. The better way, as described in this booklet, is to provide a supply of home-grown, stored and canned products, which yields good returns in money and in

Fascinating Links in Canada's History

Ottawa, May 16, (Special the Recorder)—What was the first document signed by Queen Victoria after her accession to the throne on June 18th 1837? No doubt the trained archivist could answer this question off hand, but it is enough for the lay man to know that one of the first of these documents is now on view in the Grey Room at the Dominion Archives. This was signed only two days after the death of William IV had transformed the obscure princess into the greatest of reigning monarchs. This letter, written on heavily black bordered paper in the careful penmanship of a century ago, was addressed to Lord Gosford, Governor-in-Chief and High Commissioner of Lower Canada, by the Colonial Secretary, and while long in the possession of the Canadian Archives, has only lately been available to the public.

This letter is headed "Additional Instructions to Our Trusty and Well Beloved the Governor, Lieutenant Governor or the officers administering the Government of Lower Canada, Given at our Court of St. James the 22nd day of June, 1837, in the First Year of Our Reign."

"The First Year of Our Reign" must have been almost a terrifying experience to this young girl with the never ceasing demand on time and strength, with duties and responsibilities undreamed of in her retired life. But although Kings die and Queens live, government routine goes on, and thanks to ministers, secretaries, government clerks of high and low degrees, letters, orders, documents of all kinds were prepared for signing, and all the details of the change in monarchy, were attended to. Reading this letter one realizes the many changes the death of the Sovereign necessitates, for its import is "Whereas We have been pleased by Our Order in Council of the Twenty first Instant (a copy whereof is hereto annexed) to declare Our Royal Will and Pleasure that in all the Prayers, Liturgies and Collects for the Queen, instead of the word 'King' and so on. One cannot but be impressed with a fact, so indicative of Her Majesty's character, that the "Victoria R." signed by the youthful Queen shows no change from the signature of sixty years later.

Wm. Redd was in Warner on Saturday attending a meeting for arranging for a U.F.A. Nominating Convention to be held at Courts on Thursday May 29th.

Notes from the A.C.

Mr. Cameron building inspector for the Public Works department was a visitor on Monday. Mr. Cameron inspected the school with the idea in mind of undertaking some permanent improvements, shortly.

The seeding of wheat, Sugar beets etc in connection with the fertilizer experiments is nearing completion. It is interesting to note that there are 45 grain Co-operatives and approximately 30 Sugar beet Co-operatives.

Principal O. S. Longman was a Warner visitor on Wednesday.

Although the date has not definitely been decided as yet it is probable that the short course for the School Fair winners will be held on July the 7-12.

The Co operative Institute will be held at Lethbridge again this year. The dates being around the 30th of June. Experts from both Canada and the United States will be the principal speakers.

Miss Redig and Mr. Gilbert of the School Fair team visited the Magrath and Spring Coulee districts last week. Mr. Asplund, farm manager is carrying on a very interesting experiment with steer feeding. Mr. Asplund is feeding 22 fine young steers, whose daily gains are around 2½ pounds. It is the intention to show a car load at the Royal (Toronto) this fall.

The school grounds are beginning to show their spring dress. The flowers are beginning to come out and by the middle of next week abundant bloom will be seen on all sides especially Lilies and Columbinas.

What about 125 at the school this fall. We can and we will; Lets Go.

YOUR SUBSCRIPTION

This week we have mailed out a number of subscription notices to our subscribers. We hope that in doing so we will incur no ill will, and that people will consider this an essential part of our business, just the same as salt and pepper and spices are necessary to the grocer's stock, and we have to pay for them.

A few get the idea that a paper is a fine thing as long as it is free but when one wants to collect for it, a lot of abuse is heaped on the editor and things said about the local sheet that are not very becoming for refined folks. Our subscription list is part of our stock in trade and we need the financial as well as moral support of every house hold in the community.

We do not try to vie with the city daily in conveying world news to our readers in large quantities, but we are trying to fill the mission of a local weekly in keeping our readers informed of doings within our districts, of the welfare of our friends and neighbors; and keeping a sharp lookout for world happenings of importance of unusual significance. Of course we fall short in many respects, but we are always ready to accept helpful suggestions, and always welcome new items and articles of interest from our readers. Our success depends to great extent on your interest in us.

We endeavor to feature articles of general interest in farming, beet raising, dairying, stock-raising; and other lines in which we are all more or less vitally interested. How well we are doing this, possibly you as a reader know better than we.

When you get your notice, before you say too many harsh things if you are so inclined, consider for a moment our side of the argument.

Our district is becoming well and favorably known throughout all Alberta and your home town paper is doing a great deal to spread this knowledge. Without your help it will be impossible. Think it over. We thank you.

GENUINE ATMOSPHERE IN "SO THIS IS COLLEGE"

The University of Southern California had the honor of being the first college to be used as a talking picture location.

The Trojan campus made its talkie debut when scenes were filmed there for "So This Is College," Metro-Goldwyn-Mayer's new 100 per cent talking-singing-dancing features which comes to the Capitol Theatre tonight and Saturday.

Robert Montgomery, Elliott Nugent, Sally Starr, Cliff (Uketele Ike) Edwards and Phyllis Crane play the leading roles in the collegiate comedy which Sam Wood directed from an original story.

E. Tollestrup slipped off the grade in front of Grant Card's with his Ford Light Delivery and had to be pulled out.

Mr. McIntyre, chief Engineer of the Utah Idaho Sugar Co. was a Raymond visitor this week.

News Notes

Workmen were busy Monday on the New Second Ward Chapel. The inside work is being done now.

Velma Litchfield won the Rug given away at Stones Hardware. Her guess was 2737, and the number on the rug was 2760.

Travel has been pretty much nil the last few days because of the wet roads. It will be some time before thoroughfares are really good because of continued storms.

The Baseball team had a workout on Wednesday evening and judging by what we see in these practices, Manager Woolf will field a real team this year. Let's support the boys and bring those trophy cups to a peaceful resting place in the Sugar City this season.

PREMIER CALLS ELECTION

(Continued from front page)

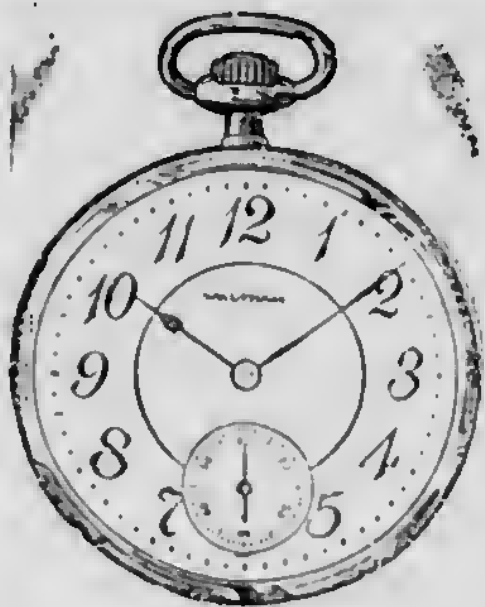

gricultural associations are protesting that they are not high enough to get relief.

The increase in butter and egg tariffs though they have been urged by the opposition, should prove decidedly helpful to the overnment, while the adical advance in the duty on field cane will probably make four more or less doubtful seats certain to the liberal party. The move to promote Empire trade will have a sympathetic reception over a wide area.

How well the secret of the budget's contents was guarded is proved by a rather humorous reaction. Almost up to the day of its presentation Liberal members of the House and the Liberal publicity bureau took every opportunity to laud the Government's prior tariff policy and to urge that the Government remain steadfast against tariff increases. The increases brought down, particularly on agricultural products, were a complete surprise and considerable of a shock within the party.

With the exception of Manitoba and Saskatchewan members the Liberals are well pleased with the policy.

How long the debate upon it is allowed to continue will depend upon what the Prime Minister hears as to the reaction of the country. If he thinks it favorable there will be a July election. If not, the debate will run its course but preparations for the campaign go merrily forth.

FARM CATTLE COUNT SHOWS BIG INCREASE

The national livestock inventory shows 57,967,000 cattle on farms at the start of 1930, a gain of 1,500,000 during the year. This was the second year of increase after ten consecutive years of shrinkage. Of the increase 836,000 head consisted of milk cows and dairy heifers one year old or over. But the beef cattle population also increased, indicating that the law point in the beef production cycle has been definitely passed.

The numbers of lambs and sheep totaled 18,913,000 head, a gain of 1,494,000 head. This was the eighth consecutive year of expansion in this branch of agriculture and brought numbers close to the highest point on record. Part of the increase consisted of a larger number of lambs on feed, but some gain in breeding flocks occurred also.

The swine population was estimated at 52,600,000 head or 4,280,000 less than a year earlier and 9,017,000 less than two years ago.—Utah Farmer.

BENEATH THE FLAGS

At the Annual Teachers Convention held in Calgary in April, there was an attractive booth where the flags of the world were on display. Forty-two nations of the civilized world were represented there, and the speaker, on asking the meaning, would be told that in each of these countries there was an active Red Cross Society and that the children were organized in the world wide league of mercy, known as the Junior Red Cross.

On the table was displayed a fine portfolio with unique pictures written in a foreign tongue. It came from the people of Bolan Marea, Central Europe, in reply to one sent them by the Albertan district of the same name, where Bolan Marea and their children are settling to Friendship. The Red Cross, in Compassionate understanding stretches to arms everywhere, linking the children and people of the world together in a bond of common

Raymond Hi Lights

Last week every one waited anxiously for Friday and watched the weather—would it rain, or could we accept the invitation of the Magrath High School to attend the opening Literary in their new school building?

Thursday afternoon our plans were complete; to make up for our afternoon off we were to arrive at 7:30 in the morning. Everyone knows how it rained Friday. We think we're fairly brave but we'd hate to be responsible for half the bad things said about the weather that morning.

However, about thirty five of the more adventurous went anyway—by way of the C.P.R. and they report a marvelous and muddy good time.

Last Wednesday the only day the sun shone—will be remembered in history by all the snapshots that grade XII posed for and took that day. We think that the developag company should know the whole class now.

INVENTIONS for WHICH we WAIT
Anyone desiring to secure fame and fortune might try his skill on any or all of the following:

A slide rule, showing in a simple form or by number the propositions to be used in solving any given deduction.

A contrivance to speed up Year Book Reporters.

An application to improve the appearance of snapshots.

Understanding and loving service. One goal—the success of the sick-finds interpretation in the old lands and the new. One aim—a finer citizenship is the ideal before the schools of the world. One far-off event—the goodwill and peace of the nations of the earth—is the hope of every Junior Red Cross branch in every little white schoolhouse in Canada. Send to the Red Cross Headquarters, 407 Civic Block, Edmonton, for a booklet entitled "Junior Red Cross, which will explain the idea behind this branch of Red Cross.

BOOKLET ON CANNING

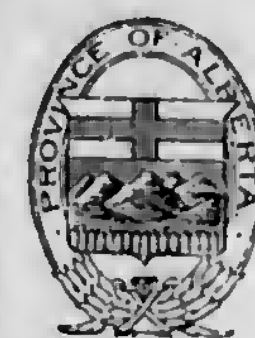

(Continued from front page)
family health, and incidentally proves mighty convenient, since ready-to-serve food is always on hand.

To show what a wide range of food products may now be stored, the following are some to which the directions in this booklet apply: Tomatoes, string beans, peas, corn, greens, asparagus, carrots, beets, rhubarb, berries, cherries, plums, peaches, pears, chicken, beef, pork, soup and fish. The containers to be used are glass jars and tin cans, the latter sealed without solder, thus being free from the danger of poison, which is described as "a hangover from the days when soldered cans were used."

There are directions for both cold and hot packs, and also not only for the ordinary methods of processing by heat, but also for the use of that extremely valuable little invention, the steam pressure cooker, which is especially helpful in the canning of meat and vegetables and is useful all the time for cooking.

Summing up, this booklet shows how canning can give summer food in winter; how the fresh-meat-in-hot-weather problem can be solved; how food that would otherwise be wasted can be saved; how feed can be saved by killing and canning chickens, pigs and calves when they are ready; how the housewife may always have a hand food for unexpected company or for busy days; and how the food bills may be reduced.

Free copies of the booklet may be obtained at the local branch of the Bank of Montreal.

And try a Recorder Want-ad. when you have anything to buy, sell, trade, or exchange. The cost is small and your message gets to the reading public so much quicker.

FOR SALE OR RENT—Good six roomed house. Apply at Recorder Office. 2M23.

FOR SALE—Old Newspapers. Put them under that new rug and double its life. Also have good kitchen table, washstand, and numerous other articles. Inquire at The Recorder Office.

News Notes

C. H. Elder has been busy this week planting some trees and shrubs around his home across from the High School.

T. Daniels of the Royal Typewriter Co. Calgary, spent Tuesday and Wednesday in Raymond.

Percy Poulsen was hauling cinders again Monday in front of the Super-Service Station. The street corner there surely needs a drain.

Workmen are busy now remodeling the front of F. T. Holt's store. The addition at the rear is just about finished. With the higher ceiling and the new front, this store will be able to render better service than heretofore.

We have seen a lot of rubbers lost in the mud, but the other day we saw a man walk out of a rubber boot on the street. Needless to say he stopped suddenly to retrieve the boot as their was still mud.

Miss E. Walscott, who owns the lot adjoining Dr. Leach, is doing a lot of work on the property now in the way of planting lawns, shrubbery, etc. During the summer and fall a large number of bulbs and perennial plants will be put out.

QUARTERLY CONFERENCE

(Continued from front page)
own church and save trouble later.
The choir sang "Rouse, Oh Ye Mortals," and Wm. Redd offered the benediction.

SUNDAY EVENING

Supt. C. R. Wing, of the Stake Y. M. M. I. A. had charge of the Sunday evening session. The choir and congregation sang "The Spirit of God Like a Fire is Burning," and W. P. Litchfield offered the opening prayer followed by an anthem by the choir "The Lord is In His Holy House."

The Male Chorus sang "Barcarolle," a patrol of Boy Scouts in uniform sang "Mother," and Assistant Superintendent Louis Brandley spoke briefly on "Mother's Day," and the subject of "Tithing."

Wm. Clark sang "Little Mother of Mine," followed by a talk on the M. I. A. Slogan by Mrs. Wm. Hogensen of Stirling. The slogan was repeated by the audience, led by Miss Velma Meldrum, and the Male Chorus rendered another number.

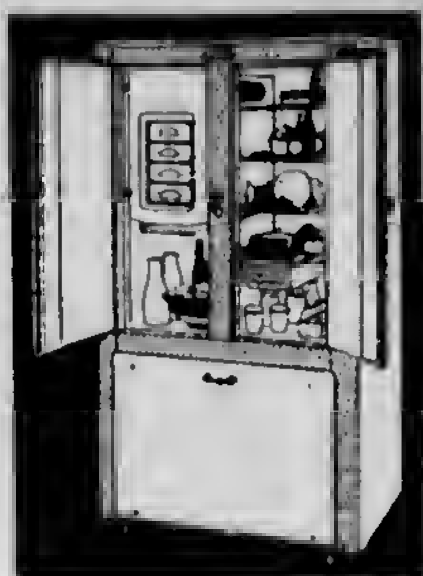

Apostle Richards spoke on extending the span of life and said that to keep at peace with the world, and love your fellowmen, and marriage, all added to one's span of life, and quoted statistics to prove the latter point, following which he gave a splendid talk to the young men and women on the subject of "Marriage" of the type approved by the Lord.

The choir sang "Rouse, Oh Ye Mortals," and Mrs. H. Nalder offered the closing prayer, following which Conference was adjourned for three months.

The Stake Choir under the leadership of C. F. Tolstrup was present at every session except Sunday morning, and added greatly to the enjoyment of the meetings. The Male Chorus on Sunday evening led by W. C. Stone gave a good account of themselves and showed a wealth of talent. All of the solo numbers were greatly enjoyed and the instrumental accompaniments to the choir and the choir members themselves all deserve praise. The number by the Boy Scouts, all in their uniforms, was very impressive and the minute of silence in tribute to the departed mothers was certainly fitting and well observed.

FRIGIDAIRE

EVERY Frigidaire cabinet is now finished entirely in gleaming porcelain-on-steel. Greater value than ever for Frigidaire buyers. See the latest model at our show-room.

The Wonderful New Oliver One-Way Plow

BUILT WITH GREAT STRENGTH

Great strength fits the Oliver One-way Gold Digger Plow for the hard work it performs. The strong, rigid frame is made of high carbon steel while all heavy duty castings—axles, brackets, clevis and furrow wheel arm—are cast steel. The Gold Digger is light draft due to special design.

DETACHABLE RIM EXTENSIONS

The V-tire wheels have detachable rim extensions which are quickly and easily taken off or attached. It is very important when working in hard ground, that these extensions can be detached so as to allow the wheels to penetrate sufficiently to obtain a good grip on the surface of the ground.

FASCINATING LINKS

Ottawa, May 16, (Special to the Recorder)—There are numerous interesting swords in the collection in the Canadian room at the Dominion Archives in Ottawa. One is of steel which is slightly tarnished and shows immediately that it was in use at one time. It is slightly engraved on the side and the inscription which accompanies it reads: This sword was carried in the Fenian Raids, 1866, by Lt. Col. Hugh Richardson, (later Hon. Sir

Hugh Richardson) when in command of the Woodstock Brigade of the Canada Rifles. It was presented to the Dominion Archives by his daughter Miss Marcella P. Richardson.

Another sword which immediately attracts the attention is one which is of sturdy make, and is of ivory. It is in a cabinet which is devoted to Indian relics and was made by a Newfoundland during the long winter nights within the Arctic circle. It is the sword of a Narwhale and the handle is the tusk of a walrus.
